

Fabiana Vicentini, Ph.D.

Universidade de São Paulo, Brazil.

Fabiana T.M.C. Vicentini graduated in Pharmacy-Biochemistry from the School of Pharmaceutical Sciences of Ribeirão Preto - University of São Paulo (2003) and PhD in Pharmaceutical Sciences from the same institution (2009). Vicentini completed an internship at the Department of Cryobiology and Biomaterials at the Institute for Biomedical Technologies at the Aachen University of Technologie, Germany (2003) and a PDEE doctoral internship at the Department of Dermatology at the University of Michigan, MI, USA (2008-2009). She completed her post-doctorate in Pharmaceutical Sciences at FCFRP-USP (2012) and is currently Assistant Professor at FCFRP-USP. She coordinated research projects aimed at the production of biopharmaceuticals and worked in the management and quality assurance of biotechnological products and processes. Vicentini research area of interest is focused on Pharmaceutical Nanotechnology with a special approach in Nanovaccinology.
