

Néstor Mendoza Muñoz, Ph.D.

Universidad de Colima, México.

Dr. Mendoza is currently a Full-Time Professor and Researcher at the Faculty of Chemical Sciences of the University of Colima, where he did a postdoctoral stay. He studied Biological Pharmaceutical Chemist at the National Autonomous University of Mexico, the same institution where he completed his Master's and Doctorate studies in Chemical Sciences. He carries out original research and scientific publications in the area of preparation and evaluation of colloidal systems with applications in the pharmaceutical, cosmetic and food areas. He is the leader of the Pharmaceutical Systems Innovation Laboratory and his latest work focuses on improving the solubility of drugs through solid state modification and on the design of modified release systems through nanotechnology. He belongs to the CONACYT National System of Researchers (SNI 1), and has PRODEP recognition from the SEP. He is a member and serves as scientific coordinator of the Sociedad de Químicos Cosmetólogos de México A.C. where he regularly teaches courses in the area of emulsions and new product development.
